Inspiration and preparation

Get inspired

First of all, take your time and think about how you want your bathroom to look and what it must have. Start by searching for inspiration, it's all around; brochures, home interior magazines, online portals, blogs and even hotel rooms. Work out which styles and colours you like and which bathroom design suits you best. It could be a place for all the family, a shared en-suite or a special spa retreat just for you.

Style tip
Keep an eye out for our handy Style Tips throughout this brochure...

Measure your bathroom

Every new bathroom design needs a plan. It's a good idea to create a floor plan of your bathroom and include the most important measurements, including where pipework, doors and windows are located.

Then decide which key items you want to include:

- Most bathrooms are only big enough to accommodate the essentials. In order to gain more storage, think about a fully-fitted bathroom or a series of wall cabinets.
- One of the biggest frustrations is the lack of storage in a bathroom so remember to plan in plenty. It's even more important in a small room to prevent clutter building up.

Go shopping

Expert advice when planning a bathroom is crucial. Our network of bathroom specialists are ready and waiting to help you make the most of your bathroom. They will clear up any questions, find the best solutions and therefore help you make the right decisions. It's a good idea to tell them your planned budget so they can recommend products within your price range.

Remember to set a realistic budget for your bathroom
Include a contingency budget of around 10% for little extras or luxuries.

Don't forget to take your plans and ideas with you.

One of our 600 bathroom specialists can advise you on every aspect of planning your bathroom

Make your choice

When you've done all your homework you should feel confident enough to make some decisions.

Once you've decided which collection and products you want, your local Utopia bathroom specialist will take care of the planning as well as arranging all of the necessary steps for a bathroom renovation.

Typically their service includes:

- Measuring your bathroom and advising on plumbing requirements
- Producing a detailed plan
- Visualisation of your bathroom
- Calculating costs to provide a detailed quote
- Ordering and providing the chosen products
- Professional renovation and installation of products.

Now follow our simple step-by-step guide to choosing your dream Utopia bathroom...

Over budget..?

If the quotation for your dream bathroom comes in at more than you were expecting, ask your bathroom specialist to suggest some cost-saving options.

Why choose a Utopia bathroom?

Expertise

We've been at the forefront of the UK bathroom industry for over 25 years and during this time we've encountered every type and size of bathroom so can justifiably call ourselves the experts. It's not just our ability to plan each and every bathroom, no matter what size or shape, it's our in-depth knowledge of how the products in your bathroom will be used.

Quality

Your bathroom must be able to withstand a daily onslaught for many years to come. Our products are produced to exacting quality standards so you can buy with complete confidence.

Craft

We're proud to be a great British brand at the forefront of bathroom innovation. Our furniture is designed, manufactured and hand-assembled in the Midlands from the best quality materials, resulting in beautiful products with the perfect functional performance to match.

Care

Our products are engineered with the bathroom fitter in mind so that installation is as straightforward as possible. Sustainability is at the heart of everything we do to ensure we make the minimal environmental impact. All our timber products are sourced from FSC® certified suppliers meaning the wood used in our factory is sourced from well-managed, sustainable forests. Total confidence in our products is reinforced by our comprehensive guarantee.

A step-by-step guide to choosing your Utopia bathroom

Follow our simple ten step guide to creating your Utopia dream bathroom...

1

If you haven't already done so, measure and draw an outline of your room and mark on the plan where the basin, toilet and bath are currently situated. Can you fit in a separate shower enclosure and bath, or is a shower bath your best option?

2

Consider your type of furniture

Fitted furniture offers maximum storage space and is designed for easy fitting with all pipework concealed behind the cabinets and plinths. *See page 14.*

Wall-hung **Modular furniture** has a very contemporary look. It requires the water supply and waste pipes to be hidden in the walls so needs more preparation work. *See page 48.*

Freestanding furniture might be for you if you want a more contemporary look without the need for additional building work. *See page 104.*

3

Once you've chosen your furniture range and selected your doorstyle, you can now **choose from the many colour finishes** Utopia has to offer. You'll find our best-selling colour combinations throughout the brochure, or for the full range see pages 190 onwards.

4 >

Choose your **worktop** from our laminate and solid surface selections. Laminate is more cost effective and solid surface provides a luxurious finish. See page 180 onwards for the full choice.

- a. If your new bathroom layout involves different depths of furniture side-by-side, choosing solid surface worktops means there are no visible joins.
- b. If you choose laminate, it comes with a standard pencil edge detail. Solid surface worktops have a choice of three edge profiles.

Image shows 20mm solid surface inverted chamfer edge profile.

7

If your chosen doorstyle doesn't have a dedicated **handle**, choose one to complement your doorstyle from the options available on pages 194.

Our handles are factory-fitted as standard but, if you prefer to customise your doors or drawers by locating your handles elsewhere, please ask your bathroom specialist to request your doors un-drilled when ordering your furniture.

8

Are you opting for a separate **bath** and shower, or do you need a shower bath? See the options on page 140 onwards. All our baths are available with co-ordinating bath panels or feature skirt (below) to match your chosen furniture.

< 5

Our **sanitaryware** is specially designed to fit perfectly with our furniture in both form and function.

- a. For Fitted furniture, pick your basin style from our range of contemporary, classic and traditional styles. For Modular and Freestanding furniture, you have a choice of what we call sit-on, integrated or slabtop basins. See pages 130-139 for the different types of basins and their benefits.
- b. Toilets can be wall-hung, fitted back-to-wall (integrated with furniture), or stand-alone, known as close-coupled. Select a toilet from our range on pages 130-139.

< 9

Plan your **wall storage**. Valuable additional storage can be gained by fitting wall cupboards or storage units - why not consider a mirror cabinet above your basin instead of a mirror? Options start on page 166.

6 >

Now for your **brassware**. To help you make the right choice, we've organised these into groups of contemporary, classic and traditional styles to help you achieve the look you want. Choose your basin taps first from page 150 and then choose your bath and shower taps to co-ordinate.

10

Choosing tiles - are you fully tiling your bathroom or just tiling certain feature areas? Do you want matching wall and floor tiles for a seamless look, or contrasting tiles for added interest? See our extensive range on page 172 onwards.

A quick guide to what's what...

Washbasins

Semi-recessed - a basin specifically designed to be used with fitted furniture and partially recessed into the worktop.

Undermounted - a basin which is typically fixed to the underside of a solid surface worktop.

Drop-in - similar to an undermounted basin, but drops into and rests on the surface of any worktop.

Sit-on - ideal with modular furniture, and typically a bowl or vessel, this basin sits directly on the worksurface.

Solid surface Inset - a custom-made, hand-finished bowl that is seamlessly incorporated into a luxury solid surface worktop.

Slabtop - a single-piece basin, specifically designed to suit a modular or freestanding unit.

Toilets

Back-to-wall - floor-standing, used with a concealed cistern within a wall or a toilet unit from any Utopia range.

Wall-hung - use with a concealed cistern and fixing bracket which can be incorporated into a toilet unit.

Close-coupled - this two-piece toilet comprises pan and cistern and is designed to be stand-alone.

Terms and Conditions

GENERAL

The colours and finishes in this brochure may vary from the actual products supplied, due to the reproduction of colours in printing. Colour samples of door foils, worktops and tiles are available from (1) your retailer (2) online at www.utopiagroup.com

(3) customer services on 01902 406402.

MFC carcass samples are not available. Samples sent to replicate units made using MFC carcass may differ slightly from the actual finish. Please ask your retailer for further information.

The sizes of all products stated are all approximate, though we try to ensure that all of our sizes are represented as accurately as possible.

All bathrooms should be well ventilated using suitable air extraction. Product failures caused as a result of inadequate ventilation are not covered by the terms of our guarantee and warranty. Please refer to your nearest bathroom specialist for detailed advice.

GENERAL GUARANTEE TERMS

Our general terms and guarantee terms are set out below. Please refer to individual product sections for specific conditions and guarantee terms.

General guarantee:

1. Applies when:

1.1 products are installed correctly in accordance with our fitting instructions and are for domestic use in a room with suitable ventilation;

1.2 cisterns and taps are fitted in accordance with current local and national water regulations;

1.3 furniture is not used in a wet room environment or in frequent direct contact with water;

1.4 Solid Surface products have been stored correctly in accordance with our packaging instructions – specifically these must be stored flat at normal room temperature prior to installation to avoid any distortion.

2. In the event of a product failure within the guarantee period (from the date of purchase) Utopia will supply a free of charge replacement for the failed item. If that part is no longer available, a nearest equivalent replacement will be supplied.

Our guarantee is limited to the products supplied and does not cover any associated installation costs, consequential loss or damage claims.

3. The terms of this guarantee do not affect consumer's statutory rights.

4. Any guarantee is limited to the original purchaser, is non-transferable and does not cover the purchase of ex-display items.

5. To obtain replacement parts in accordance with the terms of this guarantee, please contact the retailer who supplied the products.

6. Product guarantees may be invalidated through incorrect care and maintenance procedures. These are contained in the original product packaging and are available from our customer services department on 01902 406402.

7. All electrical installations must be carried out by a suitably qualified electrician. Your guarantee does not cover products incorrectly installed.

BATHROOM FURNITURE

Utopia furniture has been specifically designed and manufactured for performance in general bathroom use and carries a 5 year guarantee. All bathroom furniture will deteriorate through prolonged periods of exposure to high levels of condensation and all bathrooms must be adequately ventilated using suitable extraction to avoid this. Failure to ensure adequate ventilation may invalidate your guarantee.

Bathroom furniture is not specified or designed for use in areas of high or regular direct contact with water, particularly in wet room environments or where direct and/or regular water contact is prevalent. Any guarantee does not extend to this use.

In respect of furniture containing electrical components, these items are unsuitable for zones 0, 1 & 2 installations. If you are in any doubt, please consult a qualified electrician.

MIRRORS AND MIRROR CABINETS

With proper care and maintenance your mirrors will retain a beautiful shine for years to come. The best and safest way to clean your mirror is to use only warm water or pH neutral cleaner with a soft clean cloth. Never use a dirty or gritty cloth. Never spray directly onto the mirror. Instead apply warm water or pH neutral cleaner first to the soft clean cloth. Never use an acid or alkaline based cleaner.

SOLID SURFACE PRODUCTS

Solid Surface products are fabricated and finished by hand to individual order requirements and carry a 5 year guarantee. We strongly recommend you agree the measurements of any Solid Surface items against our order confirmation, as it may not be possible to make further amendments to orders after this stage, at which point any order becomes chargeable in full. In the event that amendments are possible, charges may apply based on the stage of manufacturing completion at that time.

MINERALCAST PRODUCTS

Mineralcast products carry a 5 year guarantee and are supplied with a 2% dimensional tolerance.

BATHS

Baths are supplied with a 30 year guarantee against manufacturing defects. All baths are supplied undrilled. All baths are manufactured and supplied using high quality 5mm cell cast acrylic, are fully reinforced with Resinite technology and are delivered with a protective film to prevent scratching.

SHOWER SCREENS

All shower screens are supplied with a 5 year guarantee against manufacturing defects. All shower screens are supplied with toughened glass. These products can be susceptible to damage during installation and any product faults must be reported prior to installation.

SANITARYWARE

Utopia sanitaryware carries a lifetime guarantee against manufacturing defects and are supplied with a 2% dimensional tolerance. Installation must be in accordance with the instructions provided and failure to comply with these may invalidate the guarantee. In respect of wall-hung products, recommended fixing brackets and frames must be used. These are not included with our wall-hung pans.

TOILET SEATS

A 2 year guarantee applies to all toilet seats and related components. It is the responsibility of the individual to ensure that suitable cleaning products are used. Do not use abrasive cleaning products or those cleaning products that contain chlorine or acids, as these may cause yellowing or peeling of the material. After cleaning, wipe the seat with a well wrung-out cloth. Leave the seat and lid up whenever strong cleaning products are left in the bowl of the WC pan to prevent damage from vapours.

CONCEALED CISTERNS

Concealed cisterns carry a 2 year guarantee against manufacturing defects. It is the responsibility of the individual installer to ensure that these products are fitted correctly and in line with the instructions provided.

BRASSWARE

Brassware ranges operate at both high and low pressure up to a maximum of 3 BAR and carry a 10 year guarantee on brassware and a 5 year guarantee on cartridges against manufacturer defects.

TILES

Our tile collection contains both wall and floor tiles. Please note that wall tiles are unsuitable for use on floors. Due to the reproduction of colours in printing across different batches, sample tiles may differ slightly from the actual tiles supplied.

In line with our re-stocking policy, a minimum of two full, unopened boxes can be returned, subject to the tiles and packaging being in resaleable condition. A 15% re-stocking charge applies.

COMMERCIAL APPLICATIONS

A 12 month guarantee applies to all products fitted in a commercial environment.

OUR ENVIRONMENTAL COMMITMENT

Our manufacturing process is green at heart. Sustainability is high on our agenda and we strive to make the least environmental impact. From the wood we use, the energy we consume, to our transport logistics, we take care to ensure we operate as responsibly as possible.

The information contained in this brochure is correct at the time of print as of November 2016. However, we reserve the right to alter materials and specifications in line with our continuing programme of product and service development.
